Dear Parent/Guardian,

We are committed to keeping your child and our whole school community safe and healthy. Each morning, before sending your child to school, we would ask you to complete the following checklist. If your child has any of the below symptoms, we ask that you keep them home and notify the school.

- Temperature 100.0 degrees or higher
- Sore throat
- New uncontrolled cough (for students with chronic allergic/asthmatic cough, a change in their cough from baseline).
- Diarrhea, vomiting, or abdominal pain.
- New onset of headache

If these symptoms are present, it is recommended that you contact your child's physician for further guidance.

If you have any questions, please contact the school at 1-740-721-0535.

Sincerely,

A handwritten signature in cursive script that reads "Scott Christman". The signature is written in black ink and is positioned below the word "Sincerely,".
